our work

Natural materials

Our company name is Prokritee which means nature in Bengali. For our products we use renewable sources of materials, such as recycled sari, jute, silk and paper as well as natural fibres and leaves. All colouring is done with AZO free dyes.

Fair wages

Our vision is that all women in rural Bangladesh can live in dignity and are valued as contributing members of the society. Our focus is to develop the social and economic capacity of these women by creating productive employment opportunities and sustainable linkages to world markets. Giving them fair wages and good working conditions are the base.

From design to shipping

We have a “Packing and Export Shipping” section in Dhaka. This section deals with quality checking, packaging, documentation and shipping for export. Our producers are committed to produce right quality products on time.
